

801 Labs Notice

On March 16th, the Board of Health for Salt Lake County issued a public order as an attempt to slow the spread of COVID-19. As a board, we have been monitoring the situation and how it relates to us. The time has come for us to do our part and as such, we regret to announce that *the Community Hackerspace will be closed until April 15th*. We are currently working on finding solutions to enable community engagement remotely. We are postponing events temporarily, and will resume them when a remote solution is announced. Although many of you have keys, you may not go to the hackerspace until it is re-opened. Any attempt to access the hackerspace without approval from a board member will be considered trespassing.

This is a hard time for all of us. The hackerspace means a lot to us and we all look forward to being there. We're really bummed about this and are sorry for any inconvenience this may cause. If you have suggestions or are interested in hosting an event virtually at the hackerspace, let us know!

Thank you for all that you do,

The 801 Labs Board
